Strategies to reduce or replace in-feed antibiotics

Formulating to reduce feed costs

Translating the latest research into practice

Jakarta, 16-17 October 2017

Ho Chi Minh City, 19-20 October 2017

Delegates at previous Feed Quality Conferences.
Science, trials & application

A strong technical program addressing fundamental themes which can enhance the performance and profitability of your layer and feed production...

The 2017 Asian Agribiz Layer Feed Quality Conferences focus on providing the latest regionally-relevant research and practical information from leading regional and international speakers from academia and industry. With the theme ‘Science, trials & application’ the Layer Feed Quality Conferences address key issues with carefully selected papers for the Southeast Asian layer industry, with actionable take home messages to help producers improve their profitability, productivity and sustainability.

Chaired discussion forums and a networking session will ensure that you have opportunities to ask these expert speakers your questions to get the answers you need.

The 2017 Southeast Asian Layer Feed Quality Conferences will consider three major sessions of interest to layer and feed producers, and consultants:

• Translating the latest layer research into practice - covering a broad range of topics, this session will bring you recent research and advances, translating layer nutrition science into best practice and commercial gain.
• Reducing feed costs - With feed accounting for 70% of total layer production costs, optimisation of feed costs is critically important in determining profitability. Feed additives allows reformulation of diets by improving the digestibility and availability of protein, starch and fats, without sacrificing bird’s performance.
• Nutritional strategies to reduce or replace in-feed antibiotics – there is growing societal and regulatory pressure on poultry and livestock producers to change their production practices as antibiotic resistance has become a major public health concern. Feed additives offer a toolbox of complementary products with specific modes of action, that work together to support animals’ performance when feed antibiotic-free diets. An integrated approach with best practices in management, health care and nutrition enables egg producers to establish a responsible and prudent use of antibiotics while maintaining performance and profitability.

I look forward to seeing you at the 2017 Southeast Asian Layer Feed Quality Conferences in Jakarta or Ho Chi Minh City.

Rex Holyoake
Program Director

DATES & VENUES
16-17 October, 2017
Makasa Room, Ground Floor
DoubleTree by Hilton Hotel Jakarta-Diponegoro
Jl Pegangsaan Timur No. 17 Cikini, Jakarta, Indonesia

19-20 October 2017
Ben Thanh Hall, 1st floor
New World Saigon Hotel
76 Le Lai Street, District 1, Ho Chi Minh City, Vietnam

PROGRAM – DAY ONE

1000 Registration opens, coffee available

1100 Welcome and introduction
Chris King, Conference Chairman, 2017 South East Asian Layer Feed Quality Conferences

FORMULATING TO REDUCE FEED COSTS

1110 Formulating to improve feed conversion
Paulien Rutten, Nutriotnist and Product Manager at Institut de Sélection Animale BV, The Netherlands
Ms Rutten completed a Bachelor Honours in Animal Management, specialising in animal nutrition at the Van Hall Institute in Leeuwarden, The Netherlands, then a Master of Science in Management, Economics and Consumer Studies, focusing on marketing and consumer behavior and a Master of Science in Animal Sciences specializing in animal nutrition, both at the Wageningen University. Her commercial experience includes Product Management roles with various European companies, before joining Institut de Sélection Animale BV as Product Manager in 2015. As a member of the Global Technical Team, she provides nutrition training and support to farms worldwide.

1150 The use of barley in Asian layer diets
Dr Tim Walker, Poultry Nutrition Consultant, Australia
Tim is well known in the Asian poultry industry. He was previously involved in poultry industry R&D, as Program Manager with the Poultry Co-operative Research Centre, Australia. Between 1974 and 2009, he held several nutrition, technical and management positions with feed manufacturing and integrated broiler companies in Australia and New Zealand. During this time, he enjoyed a number of short term consultancies in Asia-Pacific and Eastern Europe. The focus of his career has been commercial poultry nutrition and feed ingredient supply. He has qualifications in nutrition (PhD from University of New England, Australia) and management (MBA from Masquerie University, Australia).

1230 Low protein diets work!
Dr Carlos de la Cruz, Global Expert Egg Production – Evonik Nutrition & Care, Germany
Dr de la Cruz completed his Bachelor: Veterinary Medicine and Husbandry and Master: In Science at the Veterinary Medicine and Animal Sciences of the UNAM. Since joining Evonik in 2008, Dr de la Cruz has held various technical roles with Evonik in NAFTA and Europe.

1300 LUNCH

1400 Selecting the right NSP-enzymes to reduce layer feed costs
Dr Hans Christoph Wagner - Manager Business Development, AVEVE Biochem, Belgium
Dr Wagner extensive commercial experience includes General Management, Sales and R&D positions in feed mill, feed additive and animal nutrition companies, and a farmer cooperative. He has a Dr Science from the Institute of Physiology and Veterinary Sciences at the University Stuttgart-Hohenheim.

1430 Feed cost saving in layer formulation
Xabier Arbe Ugalde, Global Nutritionist, H&B International, Thailand
After graduating from the University of Zaragoza, Spain, Xabier worked with the biggest egg producer in Spain as a Field Veterinair, in charge of the company’s R&D, before becoming Production General Manager and Nutritionist. Xabier joined Novus in 2009 as the Technical Manager for Spain and Portugal. In 2012 he transferred to Novus South East Asia Pacific where he worked as the Regional Technical Manager and Head of Technical Services.

1500 COFFEE BREAK

1530 TRANSLATING THE LATEST LAYER NUTRITION RESEARCH INTO PRACTICE

KEYNOTE PRESENTATION

The value chain of the enriched egg and the advantages for the final consumer
Dr Vincent Guyonnet, Consultant, FFR Consulting Ltd, Canada
Dr Guyonnet educational qualifications include a DVM from the National Veterinary School of Lyon France and a PhD at the University of Georgia, USA. He has extensive commercial and industry experience with organisations including the International Egg Foundation, International Egg Commission, OIE Working Group on Animal Welfare, Bumbhare Farms and Pfizer Animal Health. Dr Guyonnet has been guest lecturer on poultry health, poultry science and food science at Universities in Thailand, Malaysia, China, France and Egypt. Most recently he was Program Leader for the Livestock Vaccine Innovation Fund at the International Development Research Centre in Canada.
Global laying hen feed survey 2016 – amino acid, proximate analysis and particle size distribution of 120 egg producers

Dr Carlos de la Cruz, Global Expert Egg Production – Evonik Nutrition & Care, Germany

Panel Discussion with Day One Speakers

Networking Session - light refreshments and finger food provided as you meet and mix with colleagues and speakers – until 1900 hrs.

Program – Day Two

0900 Using Hydroxy Selenomethionine to enrich Se in eggs and preserve egg quality

Dr Kevin Liu, Vice President, Adisseo, Asia Pacific Singapore

Dr Liu’s qualifications include a post-doctoral fellowship from the University of Manitoba, Canada. He has worked as a scientist for many years, covering amino acids, enzymes, trace minerals, various feed ingredients for pigs, poultry and dairy cows, and is extensively published.

0940 Nutrient requirements of the modern layer

Momenuzzaman Bhuiyan, Research Fellow, University of New England, Australia

Dr Bhuiyan has degrees in Animal Husbandry and Poultry Science from the Bangladesh Agricultural University. After graduating he held roles in Bangladesh as Scientific Officer (Livestock) with the Bangladesh Livestock Research Institute; Poultry Production Officer with Iftab Bhishumanikhi Farm Ltd, and Assistant Professor (Dairy and Poultry) at Sylhet Agricultural University. In 2007 he joined the University of New England, Australia where he obtained his PhD and now works as a Research Fellow.

1010 Coffee Break

1040 Assessment of egg quality over time of hens ranked as high or low feed efficiency

Dr Cormac O’Shea, Lecturer in Poultry Science, University of Sydney, Australia

Dr O’Shea completed a BSc in animal science followed by a PhD in animal nutrition at University College Dublin, Ireland. Postdoctoral fellowships at the School of Agriculture and Food Science, and the School of Veterinary Medicine at UC provided opportunities to investigate how dietary complex carbohydrates influence digestive physiology and immune status of pigs and poultry. At the University of Sydney he has been working on oxidative stress in pigs and poultry, variation in feed efficiency of production animals, alternatives to mainstream ingredients in pig and poultry diets, and alternatives to in-feed antibiotics. Dr O’Shea will shortly take up the position of Associate Professor of Non-Ruminant Science at the University of Nottingham in the UK.

1120 Eggs - the perfect food to market and improve national human health

Dr Linda Browning, Nutrition Consultant, University of Sydney, Australia

Dr Browning has worked for over 30 years for the animal nutrition and health industries in technical and managerial roles. While President of the Sydney University Poultry Research Foundation in Sydney she became interested in vitamin deficiency for humans and the possible use of eggs to alleviate malnutrition and hidden hunger. At the University of Sydney he has been working on oxidative stress in pigs and poultry, variation in feed efficiency of production animals, alternatives to mainstream ingredients in pig and poultry diets, and alternatives to in-feed antibiotics. Dr O’Shea will shortly take up the position of Associate Professor of Non-Ruminant Science at the University of Nottingham in the UK.

1150 Lunch

Nutritional Strategies to Reduce or Replace Antibiotics in Feed

1250 Prudent use of antibiotics by the layer sector: wishful thinking or reality?

Dr Vincent Guyonnet, Consultant, FFI Consulting Ltd, Canada

1320 Can gut health additives be used as alternatives for antibiotics? Limitations and opportunities

Dr Tim Goossens, Business Manager – Digestive Performance, Nutriad, Belgium

Dr Goossens is an R&D Engineer, providing technical support to sales teams and coordinating research projects with a focus on feed additives that support gut health. He has a Masters in microbiology and was a Scientist at the Laboratory of Molecular Biotechnology, University of Antwerp, before embarking on his PhD. His doctoral thesis looked at the molecular analysis of the development and function of the Drosophila central brain.

1350 Nutritional strategies to reduce/replace in-feed antibiotics (gut-health) in feeding high prolific layers

Robert Pottgueter, Nutristionist Expert – Lohmann Tierzucht GmbH

Mr Pottgueter has a Diploma-Ingenieur-Agrar from the Georg August Universität Göttingen, Germany. His extensive professional experience includes 24 years with Deuka Deutsche Tiernahrung GmbH & Co Kg, Düsseldorf, Germany, as Product manager poultry feed. In April 2006 he joined Lohmann Tierzucht GmbH as Nutristionist Expert, where he is responsible for global nutritional technical service and the company-owned feed mill near Cuxhaven in Germany. His key interests include poultry nutrition, specialising in layers, complete feed production, feed optimisation and quality management systems in the feed industry.

1430 Panel Discussion with Day Two Speakers

1500 Conference Closes

* Please note that this program may be subject to change.

Full program includes:

- 14 Presentations – with much data presented in Asia for the first time.
- 12 World class speakers from as far afield as Canada, Belgium, Germany, the Netherlands and Australia, with extensive experience in the Southeast Asian layer industry, provide a strong international perspective.
- Networking session from 1710–1900 on day one – refreshments and finger food as you meet and mix with colleagues and speakers.
- Background papers available during the conference; actual presentations available for download straight after the conference.
- Two chaired discussion forums will allow you to question speakers and get the answers you need.
- In Jakarta, simultaneous Bahasa and English slide shows plus verbal Bahasa summaries at the end of each presentation.
- In Ho Chi Minh City, simultaneous Vietnamese and English slide shows and audio (headset) translation.

New World Saigon Hotel

Conveniently situated only 30 minutes from the airport and with the business and commercial district at its doorstep, there is no better located accommodation in Ho Chi Minh City for business and leisure travelers. New World Saigon Hotel offers 538 tastefully furnished and spacious rooms and suites. Nearby is the legendary Ben Thanh Market and many several exclusive shopping centers.

See the Registration Form for details of the special rates for Layer Feed Quality Conference delegates.
REGISTRATION FORM

Please complete one registration form for each delegate.

Take advantage of the EARLY BIRD REGISTRATION

- I am registering as an individual and paying before 18 September 2017 for USD 75 off – you pay only USD 465 per person

Take advantage of the GROUP REGISTRATION

- I am registering as a part of a team of 3 to 5 and paying before 25 September 2017 for USD 90 off – you pay only USD 450 per person
- I am registering as a part of a team of 6 or more and paying before 25 September 2017 for USD 105 off - you pay only USD 435 per person

Regular Conference Package

- I am registering for the full conference including coffee breaks, lunches, official dinner, conference work papers and proceedings at USD 540 per person
- I will not attend but send me the proceedings on memory stick USD 250

Delegate Details

Please check one box:  □ Dr  □ Mr  □ Mrs  □ Ms  □ Miss

Family name:  ____________________________________________

Given name:  ____________________________________________

Company name:  _________________________________________

Accommodation:  Hotel accommodation and travel costs are not included in the registration fee.

Reduced conference room rates have been negotiated with the DoubleTree by Hilton Jakarta starting from IDR 1,400,000++ (USD 130 nett) including breakfast, internet and taxes. Room rates for New World Saigon Hotel starts from VND 2,350,000++ (USD 120 nett) including breakfast and Wifi internet. To make your booking please contact us at events@asian-agribiz.com for a booking form or download a copy from www.asian-agribiz.com

A list of alternative accommodation is available from events@asian-agribiz.com or can be downloaded from www.asian-agribiz.com

Dietary and special care

- Please contact me about specific dietary or care requirements.

Terms and Conditions

PAYMENT: Payment is due in full at the time of registration. Registrants who have not made full payment will be denied entry to the event.

ADMISSION: Only registered and fully paid delegates will be allowed into the vicinity of the conference, including the areas occupied by the conference meeting room, registration desk, coffee breaks, lunch, welcome gathering and conference dinner.

PROGRAM CHANGE POLICY: Please note that speakers and topics were confirmed at the time of publishing, however, circumstances beyond the control of the organisers may necessitate substitutions, alterations or cancellations of the speakers and/or topics. As such, Asian Agribiz Media reserves the right to alter or modify the advertised speakers and/or topics if necessary.

SUBSTITUTIONS: You may substitute delegates in writing up to seven (7) days prior to the event. Email details to events@asian-agribiz.com – substitutions cannot be accepted less than seven days prior to the event.

CANCELLATIONS: Asian Agribiz Media Pte Ltd (AAM) does not provide refunds for cancellations received less than twenty-one (21) days prior to the event. For cancellations received in writing more than twenty-one (21) days prior to the conference you will receive a full refund less any banking charges that may have been incurred on your behalf. Alternatively the sum can be credited towards another AAM conference for up to one year from the date of the original event. If AAM cancels the event, delegates will receive a full refund less any banking charges that may have been incurred on your behalf. Alternatively the sum can be credited towards another AAM conference for up to one year from the date of the original event. AAM is not responsible for any loss or damage as a result of a substitution, alteration or cancellation/postponement of the event. AAM assumes no liability whatsoever if this event is cancelled, rescheduled or postponed due to a fortuitous event that in the opinion of the organisers renders this event impracticable or impossible. For purposes of this clause, a fortuitous event shall include, but not be limited to: war, fire, labour strike, disease outbreak (human or livestock), extreme weather or other emergency.

PERSONAL DATA: Your data may be passed to other companies who wish to communicate with you related to your business activities. If you do not wish to receive these offers, please tick the box below.

- Please do not pass my information to any third party.

ORGANISERS: The organiser of this event is Asian Agribiz Media Pte Ltd, 25 International Business Park #02-103, Singapore 609916. Company registration no 200719300M.
